NOTES:

1. Rails are to be white and red encapsulated lens sheeting
2. Posts are to be pressure treated.
3. See *Manual on Uniform Traffic Control Devices for Streets and Highways* and the *Oregon Supplement* for:
3F.1 BARRICADES
6F.60 BARRICADE DESIGN
& APPLICATION
4. The above barricade indicates that traffic passes to the left of the device. If traffic is to pass to the right, the stripes angle must be reversed.
5. For wider applications, multiple sections as shown shall be used.

City Of Beaverton
